

## 'P' Rated - Plug fuses

GP plug fuses are Edison screw base plug fuses intended for the branch circuit protection of receptacle and lighting circuits in residential fuse panels. They have a 'P' melting characteristic which meets the Canadian Electrical Code requirements for low melting-point temperature fuses.

- 'P' rated characteristic for Canada
- Standard Edison base threads
- Meets CEC low melting point requirement.

### Specifications

<b>Voltage Rating:</b>	125VAC
<b>Speed</b>	non-time delay
<b>Interrupting Rating:</b>	10kA @ 125Vac
<b>Amp Range:</b>	15 - 30A
<b>Approvals:</b>	CSA certified Type 'P'
<b>Ratings available:</b>	15, 20, 25, 30A
